## FALL LANDSCAPING CHECKLIST

Winters in Ontario can be harsh and unpredictable.

We recommend preparing your property in the fall months so that your lawn, garden, trees, and shrubs will survive the winter and look beautiful in the coming spring.

The team at Gelderman Landscape Services has prepared a checklist to assist you in effectively preparing your landscape:

Preparing and maintaining your residential landscaping in the fall can be quite time consuming. Let our professional team help ensure that your property is ready for the winter season.

- Mow your lawn, decreasing your blade height by one inch.
- Aerate your lawn.
- Add fall fertilizer your lawn, garden beds, and trees.
- Add soil conditioner to improve the fertility, mechanics, and physical qualities of your soil.
- Rake and bag your grass cuttings
- Spread mulch in your garden, around your trees, and in plant beds.
- Prune perennials, shrubs, and trees.
- Save any bulbs that may not survive the winter months.
- Wrap tree trunks for protection.
- Remove dead plants and shrubs.
- Remove weeds in your lawn and garden beds.
- Winterize your irrigation system, drain all rain barrels and hoses, and store in a dry location.
- Overseed your lawn.
